Subject: Concerns for proposed plan

CAUTION: External Email

Dear The Local Planning team,

I am emailing on behalf of the business owner, Dr David Offord at Vermilion in Kelso (Pinnaclehill Ind Estate).

We would like to express our concerns having received two letters from you today detailing your proposed plan for 'business and industrial use' at the follow site codes:

- zEL206
- BKELS006

It seems appalling that you have a plan for this specific area when there is plenty scope for business within the industrial estate. One of the main attractions when buying the plot for David was the lovely view of the landscape. Our patients at the surgery feel as though this view has a calming effect on them - different to any other dental practice.

I would also like to add that the occupier at the plot next door to us is an eyesore and think you should be looking into this further.

We therefore would like to object to your proposal.

I look forward to your response,

Alex Hogarth (on behalf of Dr David Offord)
