Hi, I have recently bought [REDACTED], and have enquired about buying a strip of land approx 12 feet wide x 85 foot long at the side of my house. I am slightly disabled awaiting joint surgery, which may take a while. If allowed to purchase this strip of land it would enable me to park off road, hopefully build a garage so I can get an electric car, and will help me to remain independent getting my shopping into the house instead of carrying it in from the road. Coldingham Road is a quiet road with the exception of the opening and closing of the nearby school then there is parked cars on both sides of the road and people trying to get up and down the road at the same time. At present I have to time my trips out in the car as I cannot walk up the road with shopping, I cannot go or return at school opening and closing times.

My concerns are that with another 90 houses this is going to add to the problem. See attached the strip of land next to my house that would be ideal for me to get off road parking. Please reply if this is a possibility, I am having difficulty in getting any reply to my request possibly due to staff shortages due to covid.

Regards  
Margaret Davenport
