Hi as I am fairly new to Swinton I wasn't aware of the proposed plan and haven't been able to have my say in the consultation.. am I able to view the results of the consultation I had a look but alot if them were for other areas and couldn't find the responses regarding Swinton.

I would think that putting houses there would spoil the countryside, the view and also cause alot of noise and disruption to the wildlife and local area. Was this piece of land for sale also? it seems a shame to take away land which is used for wildlife and walking and for children to play in. If it was then I agree local council housing is better than private builders building house which people can't afford, there are so many houses on the market already however couldn't it be put to use by the school for instance as a playing field seeing as they have expanded the school nursery provision and currently do not have one. Or how about having it as a nice park area with units to rent out for vendors for dog walkers to grab a coffee of bite to eat that would provide business opportunities and bring people together more in the community.. There have been no buses coming through Swinton either so further transport would have to be looked and a new play park also if it was to go ahead. My daughter sent a letter about the play park in Swinton being expanded and hasn't had a response also if you could look into this that would be great. It seems that you move to the country and people just build around you which defeats the purpose, are these houses really needed here in Swinton.??

Kind regards

Julia Morrison
