Local Development Plan – Site Code EGL 16B

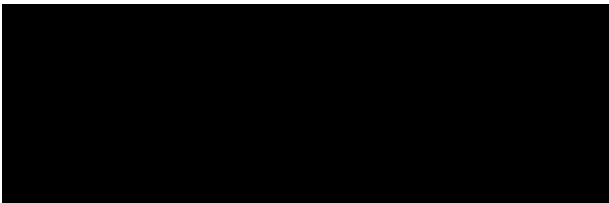

Dear Sirs,

With reference to your notification of 2nd November regarding the continuance of identifying this site in the Proposed Local Development Plan – we write to advise and clarify that as the owners of part of this site we do not wish to have our property considered for housing development.

The attached file () identifies the land in our ownership. This comprises both the yellow area immediately to the front of our home () and also the smaller adjacent orange area.

Over a number of years, the yellow-shaded area  has been developed into a terraced garden and, for the foreseeable future, we have no intention of considering any housing development in that area and request that it be removed from this Site Code.

The larger development area, shaded in pink, is not in our ownership.

Michael M. Gray
