What are your comments regarding this Site?:

Hi there,

I would not like to lodge an objection to the proposed development at Eshiels but rather express our concern with potential noise pollution from alarms and sirens. So far living here we haven't had any issues with noise pollution from alarms. If the development and operation of this new site brings with it noise pollution from alarms, we will not be able to carry out our work. Alarms have been scientifically proven to damage people's mental health. How can we be assured that alarms and noise pollution will not have a negative affect on our mental health? What measures will be taken to make sure this does not happen?

Sincerely a concerned resident,

Benjamin Chambrier
