What are your comments regarding this site?:

I seriously object to any proposed plans to build a road through the Gala Policies in order to service any development on this site. I do not believe the development warrants the loss of precious woodland which is a significant asset to the town of Gala. The loss of most of Scott Park to the new school development is bad enough but to lose part of the Policies as well would be a damning reflection on our current crop of councillors. This woodland was gifted to the town and during this particularly horrible year has come into it's own - it has provided an essential, safe space for many residents to enjoy. I have lost count of he number of people I have spoken to who have mentioned how precious the Policies are to them and the benefits they have derived from having that green haven on their doorstep. No cutting down of trees to make way for a road please.
