Question

Response

Title: Mr

Name: Giles Brooksbank

Ingraston Moss Local Biodiversity Site- Grid ref NT119481

Dear Sir/Madam,

Comments:

I welcome SBC's due consideration to the proposed site to be included in your biodiversity programme. Your site plan includes a small proportion of our land towards the eastern part of the map. In recent years attempts have been undertaken to convert part of the identified land into an industrial site. One of the reasons for application rejection was based on ED10 of the LDP, which sets out the protection of carbon rich soils and your proposal would add to the protection to this land. I welcome the adoption.

Yours faithfully
