

From Sir Charles Fraser

9th January.

21

To Forward Planning

I write to record my objection to the development of the Newbarns site. I need not rehearse all the obvious objections to the proposal. These have been made clear by those well equipped to express their forceably. Abbotsford is a very important tourist attraction and always has been. The recent development of the Tourist Center has meant increased visitor numbers

The Newbarns development runs counter to all that Abbotsford and Sir Walter Scott stands for.

Yours faithfully,
