Dear Sirs

**RE AGALA029 Netherbarns, Local Development Plan**

I would like to add my objection to this development.  
With Scott's 250th Anniversary coming up in 2021/2 and all the attendant events and visitor, it would be a travesty at this, or indeed any other time to destroy the view enjoyed and preserved for centuries, by Scott Himself.

I understand that the planting of a thin screen of trees ostensibly to hide the development will take years to mature and would be inadequate. Please do not let naked commercial interests override the protection of a vital part of our Borders heritage.

Yours faithfully

John R Wright
