I'm writing to comment on the proposed development from Hollybush through Gala Policies.

The damage and destruction not only to a green area but to many animals, insects, butterfly species and bat's will be irreversible. The destruction of woodland is unacceptable, new planting does not mitigate the damage to mature woodland.

The policies is an extremely valuable resource, it is used continually by a vast array of people and people organisations, walkers, runners, wildlife groups, scout groups, educational groups.

The Scottish government is keen to tackle the obesity crisis in this country, destroying Green space is not the way ahead. This area is under continual use, not least of all during the covid crisis. Its a place to not only exercise for physical health but also a calm place to help mental health, its a safe outdoor space to meet a friend whilst adhering to covid rules, the covid crisis is not going to lift in the near future.

The enjoyment of the area by children of all ages is extremely important, the community pleasure afforded by the fairy houses made by young ones is immeasurable.

To run a road through the policies is not only unnecessary but critically detrimental to the area.

Whilst we all agree that new housing is important, the policies should never be seen as an easy access route to such a development.

Destruction of another important green space is currently also planned in the immediate vicinity of the Policies in the Scott Park. This is a very shortsighted view by the council.

Thank you

Ah sorry, I had filled everything in on your online form but unfortunately it wouldn't let me add comments so I had to change to email.

Mrs Cheryl scott
