What are your comments regarding this site?:

My comments regarding this site also apply to SGALA 016. I think these plans must have been made before the SBC declared a climate emergency late last year, and therefore won't have taken into account the responsibilities now incumbent on the Council. Please think again, in light of that declaration, and ensure that these new developments take account of it. I also wonder if the possibility of making use of brownfield sites in the town, before building anew, have been considered? There is so much thought going into the regeneration of Galashiels, and reusing existing sites rather than destroying greenfield would be much the most positive way of going forward.
