Hello,

What a remarkable plan - to ruin for good the natural environment bordering the home of one of Scotland's most famous people. And that a screen of trees in front of the proposed development will be anything but a shoddy makeshift. Surely you cannot be serious?

When the world celebrates Walter Scott's 250th anniversary, such a development, if it goes ahead, will cast a dark view of the wisdom of the Localplan's creators.

Please do not agree to this!

Yours sincerely,

Dr John E Davies,
