**Subject:** Netherbarns development AGALA029

CAUTION: External Email

Dear sirs, I wish to register my objection to the proposed development AGALA029 on the grounds of the visual impact on the view across the Tweed from Abbotsford House. The existing tree screen is mostly mature beech trees and, once the leaves fall, the screen is lost. I note the intention to plant further screening between the old railway line and the development but, in my opinion, this will be inadequate.

Sincerely, Elise Ross, [REDACTED]
