Subject: Netherbarns Site AGALAO 29 OBJECTION TO PROPOSED PLAN

Sensitivity: Normal

CAUTION: External Email

Dear Sir,

I write again to strongly object to the current plans to build 45 houses (an estate) on the Netherbarns site. It is very frustrating that these plans have once again come to public notice.

1. Housing plans in this area have been rejected 4 times in 12 years. Why are they yet again intent on proposing more housing plans. This site is particularly important as housing would form a distasteful blot on the countryside and views opposite Abbotsford, one of our treasured historic buildings.
2. We need to protect this site, a world heritage site, for the benefit of ourselves and all the local visitors who come to the area. The railway links are bringing more tourists to the area to enjoy the wonderful countryside on offer.
3. We need to retain the protection of our Countryside Around Towns Policy, which would be diminished by such proposals. We feel strongly that this area should remain free of the impact of housing and related services.

Please give attention to these issues from the people who live nearby.

Yours faithfully,

Anthony and Brenda Haines
