Dear Sirs,

AGALAO29 Netherbarns

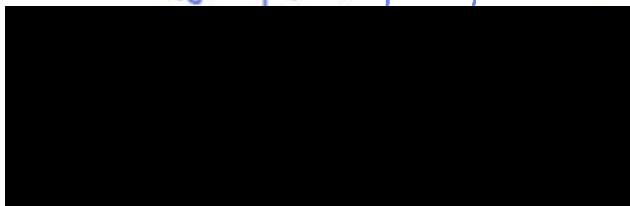

I am a regular visitor to Abbotsford and am horrified to learn that again planning permission is being sought for the fence adjacent to the house.

The beauty of Abbotsford is as much in its environment, as in the house and garden. To build a fence across the river would be to designate the view from the house-garden.

What would Sir Walter have thought?

Perhaps a better solution would be for
the Council to purchase the field and
give it to the Aboriginal Trust to mark
Scott's 250 anniversary year.

Yours faithfully

Edward Holloway
