Dear sir or madam

I am writing to lodge objections to the the planned development as outlined in the above document.

[REDACTED] over to the fields and local countryside. In addition the adjacent site has been wild for over 30 years with a a number of environmental sites which support vital wildlife. I regularly watch a local barn owl and a variety of birds which are supported by the berried trees and seeds in the grasses [REDACTED]. In addition the area appears to have a natural spring which will support wetland and amphibians' habitats.

X

This a very quiet area with very little traffic. This allows members of both used every day by the local community. With the increased number
