

MRS. A. DUNDAS-BEKKER

20th January, 2021.

Council Headquarters  
Newtown St Boswells,  
Scottish Borders,

When it may concern,

I am incredulous to learn intrusive development is proposed, "AGALAD29 Note-bays," extremely detrimental to the unique surroundings of Abbotsford. I am also involved in the presentation of Scotland's built heritage as our own house of Annisford is open to the public but we are not a patch on the significance of Abbotsford and Sir Walter Scott.

We frequently welcome visitors to our home, mostly from overseas, who tell us their reason for coming.

---

to Scotland is to visit Abbotsford  
because of Sir Walter Scott.  
As I am sure you will know  
in his last dying days he  
requested his bed to be  
moved to a front room so  
that he could look out over  
the Tweed. It would be  
iniquitous to intrude on  
his wishes in this way  
and destroy such a signifi-  
cant part of Scotland's  
history.

Yours sincerely
