Quick Comment:

Policies, Section 6: Community Council (CC) note removal of Earlston Glebe.

Business and Industrial Sites: we understand site BEARL002 was first identified LDP Amendment in 2008 then included since the consolidated LDP 2011.

Given the length of time: the current CC has no background information.

Do sites remain live indefinitely, or given lack of interest, will SBC consider removal since sites are also identified at Mill Road, Station Road and Turford Park.

BEARL002 is the only one north of the A6105 and would introduce yet more traffic flow near the busy High School entrance but feeding in from the opposite side.

Action Programme, Section 2 - Key Strategic Projects and Major Infrastructure Proposals - Green Networks. CC note "Completion of the Earlston to Leaderfoot multi use path", timescale Unknown. We have been waiting for this since the second phase was completed in early 2019 and understand the officer who went on secondment to SOSEP is now dealing with the project again.

Is there a timescale for this that can be shown in the plan?
