Comment on Policies

Which Policy are you commenting on?

Policy:

Policy IS2 Developer Contributions

What are your comments regarding this Policy?:

Policy IS2 section c) should include "and transport infrastructure providers" following "subsidy to public transport operators" to reflect the need for contributions to be directed towards infrastructure.

As a public-sector organisation and provider of key infrastructure, it is requested that the emerging LDP recognises that Network Rail should be excluded from any developer contribution requirement. Our profits, including those from commercial developments are re-invested in the railway. Improvements to rail transport contribute to the public good and railway developments should not be expected to support other public projects. Our infrastructure projects and station developments and improvements support regeneration, increase the attractiveness of settlements and benefit communities.

Comment on Sites in Settlements P to Z

Which Site are you commenting on?

Sites P-Z:

Reston: zRS3: Reston Station: Railway Station

What are your comments regarding this Site? :

Reston Station is currently the subject of a planning application which is recommended for approval at a forthcoming Planning Committee meeting on the 1st February 2021. The site boundary varies slightly from the LDP allocation and this may benefit from being updated to reflect this change, subject to consent being granted.
