Quick Comment:

I would like to register my complaint with regards to the serious short sighted planning proposals by the Relevant Committee within SBC, and the approval of SBC Committee teams on the whole, to make the alterations required for SBC proposals for the New Community based projects, that intend to interfere with Galashiels Woodland Policies which are surrounding the whole of the currant Galashiels Academy, from Scott Park, through the adjacent Woodland and water ways, through and beyond up to the Holly Bush Road and any other surrounding areas.

To choose this most ancient, unique and extremely well preserved, irreplaceable and much loved and adored area by 100,000's, of past, present and future participants of this green and pleasant land; to offer what is to be a modern brick/ brack industrial/ Educational/ Sporting and waste desposing food supplying complex, while polluting the thorough fairs with such as roads that contain light, traffic and through ways for heavy polluting transport etc. This is nothing short of choosing to destroy a rembrant by Vangoph for some minor McDonald's flyer for their latest big mack burger!

The idea to completely destroy this magnificent area, by completely wiping it off the face of the earth forever, for bricks and motar that will be insufficient to cure the fast approaching calamities caused by Covid 19, economy collapse, over crowding, and such like, is due to be accomplished by completely short sighted councilors set to look greedily on filling their pockets with coffers for what will become a playground for young, lost teenagers, to draw graffiti upon the bank rupt ideas of a lofty panel of men and women who have no realistic view of the future.

However, it is the unpresidented destruction of the woodlands at the policies etc, this irreplaceable masterpiece of God Almighty's work of Art, of living thriving wild life and Countryside which is the biggest sin to be envisaged within The Scottish Borders for many many years.

It is reminiscence to the UK and surrounding late Empire, to allow child abortion to take place in every country in the land that I find my mind comparing such an un Godly act. Not one sparrow shall fall to the ground without my Father in Heaven Knowing, may I humbly remind you.

This most natural of playgrounds for all children and adults to breath in and grow up in is by far infinitely far more important than the brick buildings you intend to build so that the armies of foreign countries can come very shortly , lay siege and destroy. Which otherwise would have been left ageing with God's good grace.

Yours sincerely,

Mr R.F.Pegg.
