Hi Chic,

I received this from the web team but I think it refers one of the neighbour notification letters for the Netherbarns site.

Debbie

John McDevitt has sent you comments on the following content from Scottish Borders Council Online: [http://www.scotborders.gov.uk/site/scripts/google\\_results.aspx?q=AGALA029](http://www.scotborders.gov.uk/site/scripts/google_results.aspx?q=AGALA029)

Comments: I have read your letter about AGALA029. I have tried to understand all the gobbledegook on the internet but to be honest it is too complicated for Joe public. I live at Netherbarns and do not want 45 houses built in this area. So as a normal person living in the area how do I and anyone else in the local area raise an objection. I have problems with traffic coming from and to Kingsknowes roundabout at over 40MPH all day and night, at rush hour the build up to the roundabout is a nightmare in all directions and you people think another 45 houses with the extra traffic will not add to the problem.
