Hi

Just to say received letters about local development proposed plan and the map of allocation isn't completely right.

We have just built and had signed off a new house at the edge of the plan and the plan doesn't show the access road and screening land that was taken into the field/land of the plan.

Not the easiest thing to explain by email but guess you could look at the approved plans for our house which should still be on the planning portal under Plot 2, Willowbank, Damside, Innerleithen – this should show the access road and screening.

Hope this makes sense, if not drop me a note and I'll try to explain/help further or even call.

Thanks

Barry Horsburgh
