Newtown St Boswells TD6 OSA

Dear Mr Wanless,

Regarding site code: RGALA004, Manse street, Galashiels

Please can you advise me and my neighbours how you propose to improve the roads to cope with the additional cars that will come with new houses built in this area? (Every home adds 2 cars)

We are now all anxious about the potential for some serious accidents due to very busy roads and lack of space for cars to move properly. We are now seeing a lot more buses and lorries on top of the school run and local driving. Please remember, we also have a farm and the Water Board up at this end and of the town. They also need to have space to drive their tractors and lorries up Manse Street and Windyknowe Road.

When the snow arrives, it is my husband who tries to de-ice the bottom of Manse street every morning as we see so many cars having to park in our own driveway.

I look forward to hearing your plans on the necessary changes required before further houses can be built.

Yours faithfully

Rosemary Eribé
