Subject: Scottish Borders Council - Local Development Plan - Consultation

Dear Charles,

I understand that the period of consultation for the revised Local Development Plan ends today at 5.00pm. Please see detailed below details which I would like to be considered for inclusion.

I request that Scottish Borders Council identify Coldingham Sands as a settlement boundary taking into account the landscape heritage and prominence of the bay.

I also request that there should be supplementary planning guidance for Coldingham Sands detailing;

1. no further development on the coastal slope
2. if new developments are to be considered at Coldingham Sands then there should be strict design codes that should be adhered too so as to maintain the character of Coldingham Sands.

I look forward to your response.

Yours sincerely,
Paul Warner
