

SCOTTISH BORDERS COUNCIL CORPORATE PRIORITIES

SUMMARY OF PERFORMANCE Q3 2017/18

HOW ARE WE DOING?

In 2013, we published our Corporate Plan, with eight priorities to work towards over a five year period. This summary provides an overview of performance during Q3 2017/18, under each of the 8 Corporate Priorities. We continue to make significant progress across a number of key areas such as the economy and education, but recognise that there are ongoing challenges to face in the coming years. Reviewing performance information regularly is a vital part of ensuring we stay focused on what is important; **ensuring the best quality of life for everyone in the Scottish Borders, prosperity for our businesses and good health and resilience for all our communities.**

KEY

A mixture of performance information is provided under each priority:

The top half of each page contains high level performance indicators that show, for example, the general health of the economy. For comparison we have included last years figure and any Scottish data (where applicable). While the Council may have influence over these indicators, they are largely contextual in nature, and the information is displayed within a grey box.

EMPLOYMENT RATE

74.5%
of people **aged between 16-64**
are now in employment

Scotland Q2 17/18	73.9%
SB Q2 16/17	74.9%

The bottom half of each page contains performance indicators that we have more influence over, for example, how quickly we process planning applications. Information for each indicator is displayed within a white box above a coloured section. This coloured section (where applicable) will be either Green, Amber or Red and shows where performance has improved or reduced against the **previous year**.

21,855

phone interactions were logged by our **Contact Centres** in Q3 2017/18

(down from 21,657 in Q3 16/17)

green - improved performance

amber - a minor change in performance

red - area for improvement

HOW ARE WE DOING?

Funding First for Scottish Borders Firm

Scotmas Group has become the first company in the Scottish Borders to secure £90k from a new business loan scheme thanks to help from Business Gateway Scottish Borders.

The company, which manufactures chlorine dioxide for use in domestic, agricultural and light industrial water systems, currently operates from two bases in Kelso. The money secured through Business Loans Scotland will help the firm finance its expansion into one building in Pinnaclehill Industrial Estate, Kelso.

Account managed by Scottish Enterprise, the business, which employs 42 people locally and a further 10 people in offices in Chile, Egypt, Turkey, Iran, Portugal and Saudi Arabia, used the expertise of its local Business Gateway to successfully apply for the money. The loan now forms part of a £665,000 investment package that includes a £90k Regional Selective Assistance grant, which will help the family-business buy the unit outright and purchase essential equipment.

IMPROVE ATTAINMENT AND ACHIEVEMENT LEVELS FOR ALL OUR CHILDREN AND YOUNG PEOPLE, WITH A FOCUS ON INCLUSION

HOW ARE WE DOING?

Flag raised as first day of new Kelso High marked

The new Kelso High School welcomed pupils for the first time on Tuesday 14 November. The £22.5million facility will provide a host of modern facilities for pupils and the community to enjoy. There was a short ceremony to mark the first day at which some pupils from Kelso Pipe Band played. Ellis Murray and Councillor Carol Hamilton, Executive Member for Children and Young People

cut the ribbon. The historic Kelso High flag was raised by Head Boy, Charlie Graves and Head Girl, Aimee Martin. The flag had flown at the old high school for many years and was lowered in a ceremony on Tuesday 7 November to mark its last day.

Facilities at the new school include a 3G sports pitch and 2G hockey pitch, grass playing fields, 100 metre

sprint track, long jump pit, netball court, eco-garden pond, space for an orchard and allotment, outdoor classroom, arts and craft garden. A new library and gym is also part of the facilities on offer.

The hard work of our project team, alongside partners, resulted in the new school being completed by its autumn 2017 target.

underage drinking campaign

Community Safety Partners have collaborated in a campaign aimed at reducing instances of underage drinking. Based around a project undertaken by the TD1 Youth Hub and Galashiels Academy, the campaign was aimed at those who might be tempted to supply or buy alcohol for young people and promote new legislation creating an offence for an adult to supply alcohol to a person under 18 for consumption in a public place.

Police and partners carried out activities, coupled with local and social media coverage and visual advertising. Licensed premises received a poster and briefing material. Facebook and twitter images coupled with the use of plasma screens promoted the message across the Borders. Facebook had over 22,000 views during the festive period campaign, key points throughout the year will be used to reinforce the key messages.

How are we performing:

The % of adults who are now directing their own care and support has increased in Q3. We continue to strive to meet our ambitious targets and meet the goal of all clients using the SDS approach by the end of 2018 (internal target increased to 90% this quarter and will increase further to 100% in Q4 17/18 as per Government Directive).

Actions we are taking to improve/maintain performance:

All new clients are assessed using the Self Directed Support (SDS) and SBC is continuing the progression of existing clients, during reassessment, onto the Self Directed Support (SDS) approach. Bi monthly performance clinics are held and this measure is monitored and discussed to ensure continued progression towards target.

Recent publication by the Scottish Government show the Variation in SDS implementation rates by local authority, 2015-16. The current Scottish Average is 26% however Scottish Border Council is listed as 16%. This measurement takes into account all clients receiving any service and may count them multiple time. It then compares this to the number receiving a care package (which will include multiple services within one unit). This information is taken from our annual data return and is not truly representative of the implementation within the Scottish Borders.

This measurement compares the number of clients who receive a financial commitment which would be considered a package of care with those who are assessed using the SDS approach. This is a more representative measure of the SDS implementation within the Scottish Borders.

This figure is a snap shot during the last month of the quarter and fluctuates throughout the time period. We have seen a downward trend over the past two quarters following a peak in Q4 2016/17. Recent larger family groups have influence the fluctuations in number of looked after children. Historically family groups with two or less individuals have made up the looked after children numbers however we have seen larger family groups of three or four becoming more frequent</p>		Ann Blackie

<p>Where we are currently</p> <ul style="list-style-type: none"> - An increase of 162 reported incidents of domestic abuse to the end of the third quarter of 2017/18 when compared to the same time period in 2016/17, which equates to a 22.2% increase. <p>Our Successes/Our Issues</p> <ul style="list-style-type: none"> - Since starting on 30th October the Court Advocacy Service has received 85 referrals, including re-referrals for breaches of bail. This has significantly exceeded the expectations in the first quarter of reporting. The Court Advocate has worked extremely hard to develop effective partnerships with COPFS (Crown Office Procurator Fiscal Service), VIA (Victim Information and Advice) and Victim Support and the anecdotal feedback is that the court system is finding the new service extremely valuable. Sheriffs are now beginning to see the benefit of additional information relating to domestic abuse risk. - The CEDAR (Children Experiencing Domestic Abuse Recovery) Participation worker has been in post for 3 months and is working with CEDAR Graduates to find a way to raise awareness of CEDAR within schools. - The CEDAR Borders Conference was a great success with delegates from all sectors attending and guest speakers providing valuable contributions. The VOMO (Voice of My Own) /CEDAR production was premiered at the conference and will be further developed as a training and awareness raising tool. - The Safe Housing Options service continues to deliver an effective partnership approach to enable victims of domestic abuse to remain safely in their own homes. Exit Interviews have shown that the vast majority of clients felt safer, more supported and had increased confidence as a result of support from the service. The Domestic Abuse Advocacy Outreach service suffered from significant staffing issues in 2016/17 but recruitment to the service is now underway, funders have been very supportive during this challenging time. - The DAAS (Domestic Abuse Advocacy and Support Service) has taken the decision to offer a Modern Apprenticeship position to resource the administrator role, this offers an exciting opportunity for a young person to gain the skills and experience in a specialist service, undertaking an SVQ Level 3 in Health and Social Care. <p>What we are doing</p> <ul style="list-style-type: none"> - The Pathway Project and its partner agencies are now able to offer a range of courses to frontline practitioners on domestic abuse, MARAC (Multi Agency Risk Assessment Conference), Risk Assessment, Responding to Trauma and FGM (Female Genital Mutilation). Evidence from evaluations is showing that there is a significant need for basic domestic abuse awareness courses, which has been built into an annual training framework, utilising e-learning where possible. - The DAAS service was specifically mentioned in First Ministers Questions in December in response to the increase in domestic abuse incidents reported to the Police. The CEDAR project also had a visit from Paul Wheelhouse, Minister, in light of the Big Lottery Award. <p>Service Update</p> <ul style="list-style-type: none"> - Referrals to DAAS are significantly higher than last year for the same time period. - MARAC continues to discuss high risk victims every four weeks. As at 12 January 2018 the number of cases discussed at MARAC is at 108 – the highest number since the process was introduced to the Borders in April 2013. By year end this number will have increased further. The MARAC Annual Report has now been published.

YOUR IDEAS YOUR VOTE

Localities Bid Fund Update

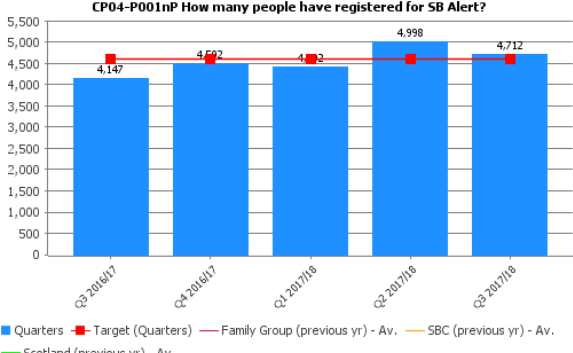

The Localities Bid Fund pilot was launched in October and received over 130 applications – of which 62 will go forward to the public vote in February.

Some of the projects going forward to the public vote include community gardens and good food hubs, choirs, recycling projects for school uniforms, art projects, intergenerational community hubs and community tourism projects.

For a number of the projects that were unsuccessful, there may be other funding streams available that will ensure that their projects are funded.

Drivewise Borders

The Drivewise Borders is a scheme designed to help improve a driver's knowledge and skills at various stages of their driving life. The scheme is overseen by the three main emergency services, former British Touring Car champion John Cleland, IAM Roadsmart, Scottish Borders Council and several local businesses, and is divided into three programmes.

The 17-25 programme aims to improve the knowledge and driving skills of the student. The student pays an up-front fee and on successful completion of an intensive IAM (Institute of Advanced Motorists) advanced driving course with final assessment drive, the student gets the fee refunded and a year's membership to the IAM.

The other side of the programme is a refresher for over-65s. This provides an opportunity for older drivers over 65 years of age to update their driving skills and confidence on the road as well as refreshing their knowledge of the Highway Code and modern driving techniques. In 2017, 106 older drivers attended this module at various locations across the Borders.

DEVELOP OUR WORKFORCE HOW ARE WE DOING?

October 2017 – December 2017:

Modern Apprentice progression within SBC

Emma Gibson joined SBC in April 2016 as a Modern Apprentice in our HR Shared Services Department. During her year as a Modern Apprentice, Emma studied for an SVQ in Business and Administration whilst at the same time learning on the job. At the end of the apprenticeship, Emma secured a role in SBC's Human Resources Department as a Clerical Assistant permanently and is now currently on a Secondment as an Administration Assistant within the HR Department.

Reflecting on her Modern Apprenticeship experience, Emma said 'It was really good, really beneficial, it gave me valuable experience of working within an office environment and the differences of working life as I came straight from school. It allowed me to continue to study which all came together to gain my Modern Apprentice qualification, plus the benefit of getting paid. I would definitely recommend the Modern Apprentice Scheme to everyone'.

Highlighting the benefits of Modern Apprenticeships to SBC, Clair Hepburn, Service Director, Human Resources said "The Modern Apprenticeship scheme has helped SBC to secure high quality new staff whilst providing additional opportunities for our young people in the Scottish Borders to find a route into employment that enables them to work and learn at the same time "

Energy Efficiency at New Kelso High School

The New Kelso High School has been built to meet and exceed building regulations and includes number of innovative sustainable technologies. All lighting is low energy or LED with occupancy detectors to ensure lights are not left on and daylight sensors so they can be automatically dimmed or switched off if there is enough natural

daylight. The school houses a Combined Heat and Power (CHP) unit which acts as a mini power station producing electricity and using the excess heat generated to heat the school. Any remaining heat required is supplied by high efficiency boilers. Pumps fans and motors have automatic speed controls to ensure the minimum energy is used to do the

required job. The building is well insulated with efficient thermal glazing and the building fabric was test by independent air tightness and thermographic tests to ensure the building structure is operating as intended.

The SBC Communications team created a social media advertising campaign to raise awareness of the Don't Buy It, Don't Supply It underage drinking campaign being run in conjunction with the Scottish Borders Safer Communities team.

The social media advertising ran in line with other activities related to the campaign, from 3 December to 2 January, to cover the festive period.

The campaign cost £300, targeting 13 to 17 year olds and 18 to 55 year olds.

The result was an estimated reach of almost 22,000 people who had seen the advert on either Facebook or Instagram at least once, with the advert appearing a total of 134,000 times on both platforms. There was a significantly larger percentage of people in the 13 to 17 year old age bracket who saw the advert on Instagram compared to the 18 to 55 year old age group.

The results of the campaign were a good return for the budget available, particularly compared to other advertising options.

Number of Complaints Closed - All (excl. invalid & statutory Social Work)		123	See comments below		Les Grant

Observations:

In Q3 123 complaints were closed. 45.6% of complaints were classified as 'Justified' and 48.8% as 'Unjustified'. In addition 5.7% complaints were classified as 'Policy'. Below is a split of complaints closed during the period by locality and reason. Where a complaint has been logged anonymously it cannot be attributed to a locality and therefore shows as undefined. 7.26% of complaints closed were undefined in Q3.

Closure Stage Count:

	Teviot	Berwickshire	Cheviot	Eildon	Tweeddale	Undefined	Summary
Delay in Responding	0	0	2	2	2	2	8
Employee Attitude	2	4	4	2	4	2	18
Failure to Del Ser	9	12	14	11	14	3	63
Other	5	5	6	5	0	0	21
Policy	0	1	2	3	6	2	14
Totals	16	22	28	23	26	9	124

Cheviot and Tweeddale localities were the areas with the highest number of complaints (22.58% and 20.97% respectively) with the most popular classification reason being 'Failure to Deliver Service' across all five localities. Teviot received the fewest complaints accounting for 12.9% of complaints closed.

All staff must undergo training on dealing with FOIs, and the streamlining of processes within departments, as well as the availability of information on SBC's new website, means that we can respond to the majority of FOI requests quickly and efficiently. All previous FOI requests are published on SBC's website along with the response provided: https://www.scotborders.gov.uk/directory/59/freedom_of_information_requests</p>		Nuala McKinlay
