Vision aims and spatial strategy

Question 1

Q1 Agree aims LDP2:

I agree with the main aims of the LDP2. There are a few areas which I would like to see more emphasis, focus, action and investment as detailed below:

- * Education and schools: this is so important for our children's future and so many local schools seem to be struggling with underinvestment and overcrowding
- * Transport - major investment needs to be made into our dilapidated road network and I would like to see ambitious plans to extend the Borders railway network throughout the region
- * Local jobs for young people - let's find a way to encourage larger employers to set up in the borders supported by better transport links, schools and infrastructure

Growing our economy

Question 2

Q2:

No strong opiniion

Question 3

Settlement business allocated:

There are many brown sites within our towns such as Selkirk with excess industrial land that could be allocated.

Planning for housing**Question 7****Housing agree?:**

I am objecting to the inclusion of site reference SPEEB009 on the following grounds:

- * There is no need for additional housing in Peebles following major recent developments and unused existing sites
- * There is insufficient infrastructure within Peebles to cater for further housing growth - particularly in relation to doctors surgeries and schools
- * Access to this site from the existing roads is not safe - especially as roads directly pass Peebles high school with large coaches accessing twice daily
- * Planned new roads to access this site would do great damage to the environment having to cross existing rivers and woodland
- * The site itself is a green site on the edge of town and would represent an unacceptable and unnecessary erosion of the borders countryside which you are committed to protect
